Most of us tend to glance through the manual when we first get our spanking new machine and experiment a little with the settings, then end up picking a couple of settings to stick with forevermore. All the different buttons, symbols and timings might seem daunting, but it's worthwhile to know how to make the most out of your washer dryer to save you time, energy, money and also, wouldn't you want to take the best care of your clothes You can also use this function to wash out stains, just be sure to first try removing the stain while it's fresh by dabbing it with a bit of soap water before popping it in the wash. It pretty much guarantees that you'll never have to wash any laundry by hand ever again. To keep things simple, here are 5 easy to remember categories Cottons Standard washing programme for textiles made of cotton or linen EasyCare For textiles made of synthetic materials or blended fabrics Mixed Load For washing natural and synthetic textiles together in a single load HygieneCare Pretreat dry laundry by hot air followed by a low temperature washing cycle to achieve the most hygienic wash results for nondelicate fabrics. Drum Clean To maintain the hygiene of the washer drum and remove residual lint. Materials such as wool or silk may be on the nono list, but its good to check the labels and make a mental note of items that cant go in the dryer. There are two different types of drying programmes Gentle and Intensive so pick the one that suits your needs. Regular cotton items or lighter clothing would be more appropriate for a Gentle Dry, while towels and sheets would be better suited for Intensive Dry. Now that you know all that your washer dryer can do, I bet you can't wait to try out a new setting with your next load of

laundry! As a general rule of thumb, always follow the temperature and wash programme selection instructions on the care label to keep your clothes in tiptop condition. http://www.centrum.elblog.pl/centrum/upload_img/file/como-hacer-un-manual-de-induccion-de-personal.xml

A dishwasher washes dishes and utensils both quickly and precisely, giving you the luxury of relaxing at home without having to worry about washing up after your meals. The best way to reduce water and energy usage is to simply learn how to operate home appliances such as your washing machine in a resourceefficient way. Here are 4 easy steps to get you started. We have put together the best tips to help you keep your appliance in good working order and assist you if it ever stops working. Sign up for a personal account and you'll find useful tips for more performance and prolonging the life of your appliance. All designed and tested to meet our high quality standards. From learning how to Quickstart to Caretips. While we endeavor to provide you with help as best as possible, there will be times where we will get back to you the next working day. Thank you for your support and we look forward to be of continuous service to you. You need these for product registration and booking your repair service. This is shown by jumps in the remaining time in the display panel. Settings indicators lights and buttons Drying time Drying time, available only for timed programmes, can be selected from min. 020 h to max. 300 h, in 10minute steps. The laundry is made drier. Select the Finished in button repeatedly until the required number of hours is displayed. Several minutes after activating Finished in option the display switches off to save energy. V Low Heat Reduced temperature for delicate fabrics, e.g. polyacrylic, polyamide or elastane, with a longer drying time. 4 Wrinkle Guard Plus After the programme finishes, the drum moves at regular intervals to prevent creases. Laundry remains loose and fluffy. The standard setting for each programme is 60 min. Other sounds are not influenced by this option. Observe the care instructions on the care label. L Cottons Hardwearing fabrics. I Synthetics Fabrics made from synthetic or blended fabrics.

Your new dryer Congratulations You have chosen to buy a modern, highquality Bosch domestic appliance. A distinctive feature of your dryer is its low energy consumption. Every dryer which leaves our factory is carefully checked to ensure that it functions correctly and is in perfect condition. Should you have any questions, our aftersales service will be pleased to help. Environmentally responsible disposal Dispose of packaging in an environmentallyresponsible manner. This directive provides the framework for the EUwide collection and reuse of used appliances. For further information about our products, accessories, spare parts and services, please visit www.boschhome.com Intended use Preparation Set and adjust the programme individually 1 2 Drying. Do not leave children unsupervised near the dryer. Keep pets away from the dryer. The dryer may be operated by children from 8 years of age, by persons who have limited physical, sensory or mental abilities and by persons who have inadequate experience or knowledge, provided they are supervised or have been instructed by a responsible person. Drying Close the door 3 Contents Page. Inform your aftersales service. Inspect the dryer Sort the laundry Remove all items from pockets, especially cigarette lighters. The drum must be empty prior to loading. Make sure your hands are dry. Only grasp the plug by the plug body. Connect the mains plug Clean the fluff filter Do not operate the dryer without a fluff filter or with a defective fluff filter. A clean fluff filter minimises energy consumption. If the fluff filter is very dirty or blocked, rinse with warm water and dry thoroughly. 4. Insert the fluff filter so that you hear it engage. 6 End of the programme. The drum and door may be hot. Notes on laundry. Labelling of fabrics Follow the manufacturers care instructions. Tie cloth belts, apron strings, etc. They may, however, be refreshed in the dryer a page 7, O. Also suitable for subsequent drying.

<http://www.drupalitalia.org/node/71862>

Observe the safety instructions on page 13. Read these instructions, the Installation Instructions and

the separate Energysaving mode instructions before operating the dryer. See the separate Energysaving mode instructions. Fabrics must be suitable for tumble drying. Towels max. 6 kg Terrytowel laundry e.g. towels and bathrobes. 1 Mix max. 3 kg Mixed items of laundry made of cotton and synthetics Mix. Timed program warm max. 3 kg Predried, multilayered, sensitive fabrics made of acrylic fibres, or separate small items of laundry. Also for subsequent drying. Timed program cold max. 3 kg All types of fabrics. Creasing in fabrics is reduced. Fabrics are not dried completely. Hang up fabrics! A Super 40' max. 2 kg Laundry made of synthetic fibres, cotton or blended fabrics for example that needs to be dried quickly. Fabrics become fluffier but not dry. Degree of dryness can be finely adjusted; multilayered textiles require a longer drying time than singlelayered items of clothing. Ask your question here. Provide a clear and comprehensive description of the issue and your question. The more detail you provide for your issue and question, the easier it will be for other Bosch Maxx 7 Sensitive owners to properly answer your question. Ask a question The filter in the door is clean, is there some other filter that keeps making it stop Tack! I would like to ask you a question about the dryer Bosch Maxx 7 Sensitive. At any program i start it, after a while it stop and flashes the indicator Behälter and the Start Stop button. Please let me know what this means and how i can fix it. Thank you.
