If more than 37 photographs are to be printed, the machine prints them Note on more than one Photo Index Sheet. 1 Select the page size and media type. 2 Select date printing as necessary. 3 Mark this to print one copy of each photograph. Good 1 Check mark 2 Line only 3 Light Important Load the paper selected on the Photo Index Sheet in the Auto Sheet Feeder. When printing image data using a Photo Index Sheet, you can select Note Important Note Other Useful Functions The following functions are available when printing from a memory card "Printing Several Photos On A Single Sheet Of Paper Layout Print". If you select. Prepare for printing. When a memory card is already inserted, connecting the machine to a computer results in the memory card drive removable hard disk being displayed on the desktop. Printing With Windows Menu and command names may differ between software applications, and Note more steps may be required. For details, refer to the documentation for each software application you use. For print settings, see the Onscreen Manual. For details, refer to the documentation for each software application you use. Note Printing From Your Computer When you select the print mode appropriate to your document from. The document is scanned. The settings configured from MP Navigator apply when scanning. If with some types of original the position and size of the image is not Important scanned in correctly, please refer to "Selecting the Behavior of the Operation Panel with MP Navigator". PictBridge is an industry standard enabling a range of digital photo solutions, Note including the direct printing of photos from compatible digital still cameras,.

This size can be selected only for Canon PictBridge compatible devices note that it cannot be selected for some models. You can also print photos received from Bluetooth compatible mobile phones or PCs using the optional Bluetooth unit BU20. When performing infrared communication, also refer to your mobile phone manual. Prepare to print. 1 Turn ON the machine and load the paper in the Auto Sheet Feeder. See "Loading Paper". Printing will start after receiving all data. Note Printing Photos From A Wireless Communication Device For the procedure to print from your mobile phone, refer to your mobile. For performing Bluetooth communication, refer to the Bluetooth User's Guide. See also the manuals supplied with your Bluetooth compatible device. Prepare to print. Setting a passkey will help prevent interference from other Bluetooth devices. 3 Selecting ON will disable search and printing from Bluetooth devices. Display the Device settings screen. Example select. Depending on the functions you use, some setting items cannot be Note specified in combination. Print Settings Quiet mode Use this function if you want to reduce any operating noise, such as when printing at night. Device name Specifies the name of this machine that is displayed on a Bluetooth compatible device. Access refusal When this is set to, the machine denies access from a Bluetooth compatible device. Security When this is set to, the passkey can be specified. When is selected, images are displayed at 5second Note intervals. When is selected, images are displayed at different time intervals according to their resolutions. Language Selection Changes the language for LCD messages. Replace the empty FINE Cartridge with a new one. Important Do not touch the transparent film A, film cable B, ink absorber sponge Caution part C, or any metal parts. Routine Maintenance Handle FINE Cartridges carefully to avoid staining your clothes or the surrounding work area. Important Insert the new FINE Cartridge.

Black FINE Cartridges should be installed into the left holder B and Color FINE Cartridges should

go into the right holder C. Important Routine Maintenance To maintain optimal print quality, we recommend that you use Canon brand FINE Cartridge. Replenishing ink only is also not recommended. Replace the FINE Cartridge promptly. Do not leave with the FINE Cartridge removed. Should missing characters or white streaks appear despite sufficient ink Note levels, see "When Printing Becomes Faint Or Color Is Incorrect" on page 84. See "An Error Message Is Displayed On The LCD" on page 98. Chapter 10 Routine Maintenance. It also appears automatically during printing. When the "!" mark appears on the Low Ink Warning The ink level of the FINE Cartridge showing the "!". However the same printing quality cannot be expected, compared to printing with both cartridges. In this case, the remaining level of ink cannot be calculated correctly. We recommend that you replace the FINE Cartridge with a new one. Follow the procedures below to clean these nozzles. Before Performing Maintenance Note Remove the FINE Cartridge once, then reinsert it into place. See "Replacing A FINE Cartridge". Use this function when the printed results are blurred or the color is incorrect. The pattern print confirmation screen is displayed. Examine the nozzle check pattern output by the machine. If the lines are broken 1, or white lines 2 are present in the pattern A, replace the relevant ink tank. Chapter 10 Routine Maintenance. Cleaning the FINE Cartridge Nozzles consume inks, so perform FINE Cartridge Cleaning only when necessary. Ensure that the machine is turned ON and the Scanning Unit is closed. See "Replacing A FINE Cartridge" on page 75. If FINE Cartridge Deep Cleaning does not improve the print quality even if Note you have replaced the Cartridge, contact a Canon service representative. Routine Maintenance Chapter 10.

With the machine ON, load a sheet of A4 or Lettersized plain paper in the Auto Sheet Feeder. Move the Paper Thickness Lever to the left position. Print the pattern. When loading the checked sheet, place the front side down, and align the upper left corner of the sheet with the alignment mark on the lower right corner of the Platen Glass. Caution Cleaning The Platen Glass And Document Cover Wipe the Platen Glass A, and the inner side of the Document Cover white area B with a clean, soft, lintfree cloth moistened with water. Then wipe with a clean, soft, dry, lintfree cloth making sure not to leave any residue, especially on the Platen Glass. The sheet of paper is automatically fed in and then out of the machine. Note Routine Maintenance If there are no signs of improvement after performing three times, contact a Canon service representative. Chapter 10. Periodic cleaning of certain parts on the inside of your machine is recommended to maintain a high standard of printing quality. The parts can be cleaned in the following ways See "Cleaning The Bottom Plate". The paper is ejected. Inspect the discharged paper. This section provides troubleshooting tips for the most common printing Note problems. If you cannot find appropriate tips for your problem, refer to the on screen manuals. Canon recommends to use new genuine Canon Cartridges in order to obtain optimum qualities. Chapter 11. If the same error occurs, contact a Canon service representative. Action Adjust the contrast of the LCD in the. FINE Cartridge nozzles clogged or shifted. Print Quality is not set properly. Media not loaded printside up. The paper stack exceeds the capacity of the Auto Sheet Feeder. There is some foreign matter in the Auto Sheet Feeder. The Paper Output Tray is closed. It may solve the problem. Delete an undesired print job, if there is any. The hard disk does not have enough available space. When Copying Cause The document is not loaded correctly.

The quality image quality displayed on the LCD is not suitable for the document. Follow the steps described below to clean the inside of the machine. 1. Inappropriate paper type is used. Thick paper is used. Media is curled. Troubleshooting Action Follow the steps described below to clean the paper feed rollers. 1. Ensure that the machine is turned ON and there is no paper loaded in the machine. Slide the paper guides against the paper stack. Action Use Photo Paper Pro or other Canon genuine media to print images that have a high color saturation. See "Paper Types You Cannot Use" on page 16. Important You cannot load Credit Cardsized paper in the landscape orientation. An Unintended Language Is Displayed On The LCD. Cause The language you want to be displayed is not selected. Chapter 11 Action Make sure all required boxes on the Photo Index Sheet are filled in, and that the

sheet is set in the correct position and orientation on the Platen Glass. The error messages and operations may vary depending on the camera you are using. If you are using a nonCanon PictBridgecompatible camera and not sure how to clear the printer error from the camera, confirm the message displayed on the LCD of the machine and clear the error. Prepare a new FINE Cartridge. Select Continue in the display on your camera to resume printing. For problems when printing via Bluetooth communication, refer to the Bluetooth User's Guide.If the CDROM icon is not displayed on the desktop, there is a problem with the CDROM. Contact a Canon service representative.Make sure the CDROM is readable from Windows Explorer. ScanGear Wont Start Cause Scanner driver ScanGear is not installed. Machine may not be selected. The application program used does not support calling up ScanGear. An error message appears and the ScanGear window fails to appear. Specification of the application program. Dirty Platen Glass or Document Cover. The status of the original is poor.

The color of a preview image or a scanned image is different from the original when scanning an image with a plain background like the blue. Observe the following when outside the supported area.Error arising from Some application softwares do not support multiple image scanning. Scan each application software item individually without using the MultiScan or MultiCrop function. Scanned Image Is Not Displayed Properly Cause Scanned image prints out enlarged reduced. Scanned image enlarged reduced on the computer monitor. Scanned image wont open. Trouble scanning with MP Navigator Cause The original may not be scanned. A USB port is selected if either USBnnn Canon MP460 or MPUSBPRNnn Canon MP460 where n is a number is indicated. Once the ink absorber becomes completely full, printing cannot be done until the ink absorber is replaced. Canon recommends that you contact a Canon service representative as soon as possible. Action Disconnect the camera cable and reconnect the cable. The Scanning Guide cannot be displayed. Insert the Setup CDROM into your computer and install the onscreen manuals instruction manuals. Canon support staff are trained to be able to provide technical support to satisfy customers. Attempts by customers to repair or take apart the machine will invalidate any Caution warranty regardless of whether the warranty has expired. Recommended printing Canon recommends that you print within this area. area Printable area The area where it is possible to print. Note that this uninstall procedure will uninstall all guides.If you do not have the original packing materials, pack the machine carefully using protective material and a sturdy box. Turn the machine OFF and unplug the machine. Printing on this paper is available only when the Layout function on your camera has a 16up option. See "Recommended Paper" on page 17. If such changes or modifications should be made, you could be required to stop operation of the equipment. Canon U.S.A., Inc.
