Adobe acrobat reader dc 64-bit download

To download the Adobe Acrobat Reader DC offline installer, you need to use the files to create a package. First, install the up-to-date .msp with the msi, noting that the msi is called acropro.msi but contains the reader. Use the following command in PowerShell App Deployment: Execute-MSI -Action Install -Path 'AcroPro.msi' -Parameters "PATCH=""\$dirFilesAcroRead.msp"" /QN. You can also use this command to install the 64-bit version: msixec /i AcroPro.msi PATCH=AcroRdrDCx64Upd2300120143.msp /QN. The package is still larger than 800MB, but below 500MB if zipped. To add an .mst file and disable desktop shortcut creation, use the following command: msixec /i AcroPro.msi PATCH=""c:\temp\AcroRead.msp"" /QN DISABLEDESKTOPSHORTCUT=1.
