CathysChords hasn't retired yet :)April 2020 update-A huge Thank You to those who have been supporting the site with donations!In these troubled times, sharing and making music is more important than ever, and I hope this site is helping in some small way.I have now revised this list to fix some broken links and to include the 'new' songs I had posted in the blog but not yet formatted into the lists of songs.Please keep letting me know (via Send Message -below- or Facebook) if you find any broken links that I've missed. Enjoy.Cathy)> Here are all the songs in the List of Songs for Guitar, arranged in Levels. An alphabetical list is on the Guitar Songs List page NOTE that the levels are designed for beginners to gradually build up a bank of familiar chords and do not necessarily indicate level of difficulty... Level 11-13 songs may just have easy D, A, and E/B7 chords! *+ Levels (e.g. Level 4+, 16+) are harder than other song sheets for that level - in lower levels usually because of fast changes or tricky timing - in higher levels usually because of one or more unusual (but not more difficult) chords Mar 2017 - NEW LINKS: I have had to move all my song sheets files and so have re-done all the links on the main pages of the site, including this one. I'm hoping (!) it will all go smoothly, but please let me know if you find any links that don't work (you can use the form below or comment on Facebook). -Revisions: I have revised some of the older song sheets when I moved them; these are marked with "r17" (for minor revisions), rev 2017" (for non-essential changes), or revised 17" (if there are major changes/corrections) - so you know if you should check out the new versions of songs you already may have. All the other songs on this list are just marked '17' to show that they have the new links. NOTE - If you get a 'Sign up' message from Dropbox, just ignore it - the file should open regardless.
