Tinospora cordifolia research paper pdf.

HTML text Tinospora Cordifolia: a Phytopharmacological Review Garish Joshi \* and Rajandeep Kaur CT Pharmaceutical Science Institute Jalandhar, Panjab, India Summary: Plants have been one of the important sources of drugs since the beginning of human civilization. There is a growing demand for vegetable-based drugs, health products, pharmaceutical products, food supplements, cosmetics, etc. A revision of chemical constituents present in various parts of the Cordifolia tinospora and their pharmacological actions is given in this article. Tinospora Cordifolia, is a commonly used shrub in ayurvedic medicine. Although revision articles on this plant are already published, this article reviewed to comply with all the updated information on its phytochemical and pharmacological activities, which have been performed with very different methods. The important medicinal properties are anti-diabetic, antispasmodic, anti-malarial, anti-inflammatory, anti-arthritic, anti-oxidant, anti-allergic, anti-stress, anti-leprotic, hepatoprotective, immunomodulatory and anti-neoplastic activities. Tinospora Cordifolia, Ayurvedic medicine, immunomodulatory, anti-allergic, health products Introduction: Medicinal herbs represents one of the most important fields of traditional medicine around the world. To promote the use of phytotherapy and to determine their potential as a source of new drugs, it is essential to study medicinal plants that have folklore reputation in a MoRea intensified mode 1. Human beings used plants for medicinal purposes for centuries . The traditional forms of medicine have existed and still exist in many countries of the world, including the countries of the Indian sub-continent such as India, Pakistan and Bangladesh 2. The writings indicate that therapeutic use of plants is as ancient as 4000a 5000 BC and Chinese were the first to use natural herbal preparations, such as medicines 3. Plants are one of the most important sources of drugs. Today the large number of derivative drugs à €
