Very stylish and easy to use. We purchased the WiFi option and use it with the Sundance APP. We could not live without that feature. We're able to turn the heat up, while on a bike ride, and when we get home the hot tub is at the ideal temperature. Great way to keep costs down and have it ready, when we are. - Shanty After wet and dry testing several models, we are so happy we went with the Cameo 880! We love the recliner and the short step features. - Salexa I bought this about two months ago and have been enjoying it almost every evening. It does work nice and I enjoy the ability to lower the jets speed on my back. It is nice to get out and not have a red back from the jets beating it up. - Willy90 Our new Cameo 880 spa is amazing! The jets and all the features make it so relaxing to use. - TerrT The best way to see if this hot tub is right for you is by trying it out for yourself.
