Show more screenshots Rome Puzzle is one of many free games on Gametop. Fans of complex puzzles and logic games will surely enjoy Rome Puzzle. As the name of the game suggests, this game has an ancient Roman theme, which gives you the perfect opportunity to experience the spirit of the classical era by rebuilding monuments and reconstructing relics from the past. The game is about collecting resources and lining up the right items in a row. It also includes 8 special power-ups that you can get to speed up the game. Contains 100 levels to complete. These levels are distributed over five different historical periods. Levels come with over 20 challenging missions to keep you busy. When you start the game for the first time, you start out with a small village that could eventually become the capital of the Roman Empire itself! You can build various unique Roman structures and gradually increase the population of your settlement. New Version Search Similar Items by Category Opinions Complete over 100 intuitively designed levels and build Ancient Rome, the most legendary city of all time. Page 2 Totem Tribe II: Jotun is an exciting mix of genres you've never seen before! The original Totem Tribe combines casual strategy, adventure, puzzles and hidden objects. RPG elements have now been added to this new installment, making the strategic elements of the MMO world map a lot of fun! If you prefer a certain genre of games, such as hidden object games, you can focus more on the hidden object aspects by playing more hidden object scenes. If you prefer puzzles and jigsaw puzzles, feel free to play them. Play the free game the way you want! Experience 9 different eras. You start with a primitive tribe that created their first village in the Stone Age. Through research and development, you can reach later eras such as the classical era, renaissance, and finally the Space Age (a total of 9 different eras)! Threats lurking around every corner Experience the life of a mysterious hero reincarnated from another time on the planet Theia. You will battle tyrannical god-emperors and uncover hidden threats that threaten humanity's existence. But remember that things are not what they seem. In Totem Tribe II, a sandbox-style online strategy game, you can choose between 6 possible ways to win and how to progress towards it. You can achieve adventure, science, culture, wealth, expansion or victory in war! And when you do, you win the game! Once this is done, you can continue the game starting over in the beginner area with special completion bonuses. Or you can play the game like a sandbox without even caring about those winnings - it's up to you! Play casual or hardcore, the choice is yours! Avid gamers will love the many PvP and multiplayer options available. You can start with weaker neighbors and dig them out, then join a larger alliance of territories or even lead a coalition of alliances to take over the world. Defense alliances are also possible, where players can band together and coordinate defenses to facilitate war. But if you don't mind fighting other players and prefer constant expansion, trading, quests or puzzles, you'll fit in just fine too. Depending on what starting bonuses and debuffs you choose, the starter may receive a defense bonus in exchange for losing attack power. Your protection lasts until you're ready to collaborate with others! Sound exciting? Download and play Totem Tribe 2: Jotun for free now! Or read our detailed test report here. Now you have the opportunity to manage it and nurture it, develop it and push it to the greatness of Olympus. Rome Puzzle is a sensational mix of puzzle game and big city management and administration. You must solve complex intelligence problems while developing colonies in the heart of the ancient world. Start by buying a fountain and a tavern, earn money, build bigger buildings, raise monuments... Develop your city until the doors of Olympus open if you do everything right. The game system of Rome Puzzle is quite simple and intuitive. Simply connect three or more identical pieces on the game board to make them disappear. After completing a level, you will be credited with time spent and bonuses earned to bring goods to your city. As you can see, Rome Puzzle's approach is very similar to other puzzle games and skill challenges. But the addition of the challenge of managing various resources to create a prosperous city is a breath of fresh air in a genre that's oversaturated with the same ideas as ever. You can download Rome Puzzle for free and safely install the latest trial version or the new full version for Windows 10 (x32, 64-bit, 86) from the official website.
