### 2 PROFESSIONAL TOOL TO FIND YOUR TRADING STRENGTHS & MISTAKES

The screenshot shows a complex trading analysis tool with multiple panels. On the left, there's a 'Total Trades' table. The main area is divided into 'Money Management' and 'Psychology' sections. The 'Money Management' section includes 'Profit / Loss (%)' and 'Risk / Reward' metrics. The 'Psychology' section includes 'Max Loss' and 'Max Profit' metrics. There are also several small line charts showing price movements over time.

### GARCH(1,1) Analysis

<http://www.investopedia.com>

The default data is the GBP/CAD exchange rate between 1st May 2007 and 16th October 2010. Go to Data-Solver and click Solve to run the analysis.

Parameter	Value
