Mirror your texts from a phone to another phone. MYSMS Mirror is a practical SMS extension for all those who use two or more smartphones. The app displays your texts from a phone to your phone to your phone to keep up to date. There are no missed texts, no lost message, no worries that calls you. You will hear you as if you had your second phone with you, even if you leave him at home / office. *** IMPORTANT: With this app synchronizes all messages from the MySMS Phone application. All messages that appear in your MySMS mailbox on your other phone, will be displayed in this mirror app. *** How to start: 1) Install MySMS on your smartphone you want to reflect and create a MySMS account. This will be the account you use to reflect your texts. 2) Install this app to view your messages on your main phone and log in with your MySMS account previously created or existing. IFAURS You will love you: A € - MI SMS mirror from your phone to another phone, synchronize SMS from a phone to another phone, Send and receive texts using your second phone notifications, notifications of your second phone calls on incoming calls / Failed from your main phone - SMS transfer to another phone - Manage two SMS accounts on a phone: Save your texts securely in the MySMS Cloud Storage € - Chat chat with a maximum of 50 participants € - Share images With your contacts: free messages to other mysms friends € - Send texts on any device with MySMS Tablet, Desktop & Web Applications We are always happy to hear you! Do you have a suggestion? A question? A problem using the application? Just contact us at and we will reply as quickly as possible. You can also reach us on facebook at twitter @mysms and google+ . Performance improvements and bug corrections that I used to have MySMS (for iPhone) and was a great program; It worked beautifully. Well, it's a €
