Man 1: Go ahead. So were going to install the Bluetooth. This spa has a stereo. Were going to hook up the Bluetooth. What youll get in the bag or the box is youll get thats the Bluetooth receiver, a couple of strainer leaves, the USB cord, the audio cable, and a little this is to hold the wire. So, first thing I do is mount this inside this spa pack. It comes with Velcro on one side. Peel off the Velcro. I do it with the audio cable facing this way and the power cable and the USB cable facing this way. I like to mount it just up right above these relays. Okay, now Im just going to mount this. Its going to hold the USB cable, the excess. Just peel the back. Mount it right by this relay here. Okay, now were going to connect the USB cable. So, the small side plugs into the receiver. The large side is going to come and plug right onto the processor card. And then Im just going to cable tie the excess. So thats that part and now we just have to run an audio cable from here out to the amplifier. So again, we need a hole drilled in this pack. This has been pre-drilled, but you can use a three quarter inch hole saw and just somewhere in the bottom here drill yourself a three quarter inch hole. Now thats for the cable gland. So, on this one you can install the cable gland, like so. Man 2: Cable gland. Man 1: Cable gland or strainer leaf. Take your cable around the 3.5 millimeter headphone jack through. If you want you can run it nicely behind everything. Plug it in. Tighten up the cable gland. Man 2: So they come in, get hooked up to the two RCAs and youve got your audio input into the amp sitting right there in the corner. As you can see as well, on this specific model too, the stereo is located in the furthest corner from the pack. And Global has added enough cable to be able to install this in all applications. Man 1: Okay, so the Bluetooth is installed. Now were going to connect the iPhone and play music through it. Man 2: Yep. Man 1: So from the iPhone, click on your settings tab. Okay, the first page of settings, youre going to go to general, Bluetooth. Turn your Bluetooth on if its not already on. Now, its going to pop up B228BT. Now Ive already connected so Im going to disconnect or forget it. Just to show you how to connect the very first time. Forget Device. Okay, so there it is. Ill say, Not paired. Click it. Its going to ask you for a PIN code. The PIN code is four zeros, 0-0-0-0. Man 2: Always is 0-0-0-0? Man 1: Always is. Man 2: Always will be. Man 1: Always will be. Four zeros. Click pair in the top right corner. And it says, Connected, and then in the top right corner of the screen you see the Bluetooth logo, showing that its on. Okay, exit out, then go to your music and hit play. [music] Now were streaming Bluetooth. Man 2: All right, whats that little button right there for? Man 1: So this little button lets you decide whether youre going to play the music through the hot tub, the B228BT, or the iPhone itself. [music] Man 2: Then you switch back again. [music] Man 2: There we go. Excellent eh? Now, if we think we have a problem with the Bluetooth, is there a way we can test the system for music coming out of the amp and the speakers? Man 1: Yeah, so if youre playing here, so youre connected to the Bluetooth, you have the little thing here. It says its coming out the Bluetooth, but you dont get sound or you suspect theres a problem with the connection, you can come to the Bluetooth receiver. You pull out this headphone jack, okay, and were going to plug it directly into the device and make sure that the sound is coming from there. So that will tell you if the problem is from this cable, the amp, the stereo forward, or if its from the Bluetooth receiver not receiving the music. More hot tub repair tutorials and videos are here. Sometimes people ring our showrooms and ask a seemingly simple question: How do I connect Bluetooth to my spa? We know it sounds simple and everyone uses it, but making this connection can sometimes require a few extra steps. Some spas have PINs, others have device connection limits, and there are a few more reasons why this might be a little more complex than you think. In this short article, were going to show you how to connect your Bluetooth device to your hot tub so you can listen to your favorite music. Well also go through the most common troubleshooting steps we help people with. Heres what you need to do to connect your device to your hot tub with Bluetooth. Ensure that both your hot tub and mobile device are powered on. Activate the Bluetooth function on your smart device. Download the relevant mobile app for your hot tub. For Wellis hot tubs, this would be the Wellis Spa Control App, available on both iOS and Android platforms. This app will allow you to control various features of your hot tub, including the spa sound system setup. Navigate to the Bluetooth settings on your smart device and turn on Bluetooth. This will enable your device to search for nearby Bluetooth-enabled devices, including your hot tub. In the Bluetooth settings, locate your hot tub from the list of available devices. Select your hot tub to pair it with your smart device. The pairing process should be quick, and you may receive a confirmation message once the connection is successful. Common Troubleshooting Issue: Many hot tub Bluetooth connections need a PIN. This is set by the manufacturer. The most common PIN numbers are 2288 and 5555. If these dont work, call your dealer. They should be able to give you the number to you quickly. With your device paired, open your preferred audio app, whether its Spotify, Pandora, or another service. Select your favorite playlist, podcast, or audiobook, and enjoy the high-quality audio through your hot tubs integrated speakers. BrandCommon PINsNoteWellis2288, 5555Check the Wellis Spa Control App or user manual for model-specific codes.Jacuzzi2288, 5555BLUEWAVE system may require dealer assistance for specific PINs.Hot Spring Spas0000, 5555AAV system PINs vary; refer to user manual.Cal Spa0000Contact dealer if PIN is not listed in manual.Balboa1234, 0000Balboa Bluetooth audio may need firmware update for pairing.Common hot tub Bluetooth codes for popular brands Even with a well-designed Bluetooth spa control system, you might occasionally encounter issues connecting your device to the hot tub. If your hot tub Bluetooth is not working, dont worry—weve got you covered. Common issues include being out of range (Bluetooth typically works up to 30 feet), interference from other devices like Wi-Fi routers, or outdated firmware. Before diving into specific fixes, ensure your devices are powered on, within range, and free from obstructions. If problems persist, the steps below or a quick call to Epic Hot Tubs can get you back to enjoying your spa audio. Here are some common troubleshooting steps to resolve Bluetooth connection problems and ensure a seamless wireless audio experience for your hot tub. On your smart device, go to the Bluetooth settings, forget the hot tubs Bluetooth connection, and then re-pair them. This clears any previous connection data that might be causing problems. A simple restart can often resolve connectivity issues. Turn off both your hot tub and your smart device, wait a few moments, and then turn them back on. This soft reset can refresh the Bluetooth connection. If your hot tub has a reset option for its Bluetooth module, try resetting it. This usually involves holding down a button or following specific instructions in the user manual. If your hot tub has a limit on the number of devices it can pair with, ensure you have reached that limit. Clear any unnecessary paired devices from the hot tubs memory. First, ensure that your smart device is compatible with the hot tubs Bluetooth system. Not all devices work well with every Bluetooth version or protocol, so refer to the user manual for compatibility details. Check if there are any firmware updates available for your hot tubs Bluetooth module. Manufacturers often release updates to improve compatibility and fix bugs. Keeping the firmware updated can solve many connectivity issues. Ensure the hot tubs Bluetooth module is receiving proper power and has a stable signal. Loose connections or power issues can lead to connectivity problems. Bluetooth signals can be disrupted by other wireless devices or even microwave ovens. Turn off other nearby wireless devices to see if it improves the Bluetooth connection. To connect Bluetooth to your spa, first ensure your hot tub and smart device are powered on. Enable Bluetooth on your device, download the spa control app (if required), and search for your hot tub in the Bluetooth settings. Select your spa from the list of available devices to pair them. Once connected, you can control audio, lights, and other features directly from your smart device. Want to make the most of your hot tub? Check out our guide to better hot tub stress relief. The first step in enjoying a Bluetooth spa control system is finding a spa model that is compatible with Bluetooth technology. When comparing hot tub features, ensure the one you want has built-in Bluetooth capabilities or can be easily upgraded with a Bluetooth sound system. Wellis hot tubs, for instance, come with advanced features including the MyMusic 2.1 sound system, which offers seamless Bluetooth connectivity. Models such as the Olympus Hot Tub, Kilimanjaro Life Hot Tub, and Milano Life P&P Hot Tub are excellent choices. These luxury hot tubs with Bluetooth functionality allow you to control audio settings, lights, and more directly from your smart device, ensuring a modern and convenient hot tub experience. Want more options? Take a look at these party hot tubs. At Epic Hot Tubs, we know that jacuzzi Bluetooth pairing or connecting other brands can vary depending on the system. Brands like Wellis, Jacuzzi Hot Spring Spas, and others have unique Bluetooth setups, which can affect PINs, apps, or troubleshooting steps. Dont worry—weve compiled tips for the most popular brands to make your hot tub Bluetooth experience seamless. For Wellis hot tubs, the MyMusic 2.0 sound system is a standout feature. To pair, use the Wellis Spa Control App and enter the Wellis hot tub Bluetooth code, typically 2288 or 5555. If you need a Wellis hot tub Bluetooth code reset, check the user manual for instructions on resetting the module, usually by holding a reset button for a few seconds. Contact your dealer if the standard PINs dont work. Jacuzzi BLUEWAVE Stereo System offers robust Bluetooth connectivity for models like the J-500 series. For jacuzzi Bluetooth pairing, select the spa in your device settings and try PINs like 2288 or 5555. If you face issues, ensure the systems firmware is updated, as this can resolve connectivity glitches. Hot Spring Spas AQAV Bluetooth Audio System is another great option. For hot springs spa Bluetooth troubleshooting, clear paired devices and restart the spa to refresh the connection. Balboa Bluetooth audio systems, common in various hot tub brands, and Cal Spa Bluetooth setups may require specific PINs like 1234 or 0000. If your Cal Spa Bluetooth is not working, check for interference from nearby devices or update the firmware. For any brand, always refer to the user manual or call Epic Hot Tubs for model-specific guidance to get your music flowing. BrandSystemCommon PINsAppTroubleshooting TipsWellisMyMusic 2.0/2.12288, 5555Wellis Spa ControlReset module via manual; check app for updates.JacuzziBLUEWAVE2288, 5555NoneUpdate firmware; contact dealer for PIN.Hot Spring SpasAAV0000, 5555NoneClear paired devices; reset spa.Cal SpaBuilt-in Bluetooth0000NoneCheck for interference; update firmware.BalboaBalboa Bluetooth1234, 0000Balboa App (optional)Ensure compatibility; update firmware.Brand-specific Bluetooth pairing details FAQ Can you make your hot tub smart? Yes, you can upgrade your hot tub with smart controls and WiFi connectivity if its not already equipped with these features. However, its often more practical to purchase a model that comes with built-in smart features. Do all hot tubs have Bluetooth? Not all hot tubs are Bluetooth-enabled. Luxury models, like those from Wellis, often include this feature. Always check the specifications before purchasing. How do I turn on Bluetooth in my hot tub? To turn on Bluetooth, activate the Bluetooth function on your smart device, and select your hot tub from the list of available devices. Follow the pairing instructions specific to your hot tub model. Why wont my hot tub connect to Bluetooth? If your hot tub wont connect, try restarting both devices, ensuring they are within range, updating firmware, resetting Bluetooth settings, and checking for interference. If problems persist, refer to the user manual or contact customer support. What is the Bluetooth code for my Wellis hot tub? The Wellis hot tub Bluetooth code is typically 2288 or 5555 for the MyMusic 2.0 or 2.1 systems. Check your user manual or contact Epic Hot Tubs for model-specific codes. How do I fix my hot tub Bluetooth not working? To fix your hot tub Bluetooth not working, ensure devices are within 30 feet, restart both the spa and your device, update firmware, and check for interference. For persistent issues, try resetting the Bluetooth module or contact Epic Hot Tubs for support. Can I pair my Jacuzzi hot tub with Bluetooth easily? Yes, jacuzzi Bluetooth pairing is straightforward with the BLUEWAVE system. Enable Bluetooth on your device, select the spa, and enter a PIN like 2288 or 5555. Refer to the manual or contact Epic Hot Tubs if you encounter issues. We know you just want to get on with your massage experience while listening to your favorite tunes. Just set up the bluetooth connection following this guide and youll be good to go. If youre still running into problems, give us a call at Epic Hot Tubs and well be happy to help. If youve got an older model that just cant do this, maybe its time for an upgrade. Look through our list of the best hot tubs for the money. Or just stop in at one of our showrooms. Well help you look through the best models to find the perfect one for your home. Manny Brambila - Pool & Spa Expert Manny has been in the Pool & Spa industry for over 15 years and is considered a pool, swim spa, & hot tub expert. He has been a Certified Pool & Spa Operator (CPO) since 2009 and worked 15 years in aquatic training and development for the largest pool chemical and customer care company. He also has been an outside consultant for the Pool and Spa industry in Chicago, New York and Los Angeles since 2018. In this post we have solved problems associated with Joyonway Bluetooth Audio system in your hot tub or spa. If you have a problem with connecting, pairing or stutter, read on! The first step is to check if the Bluetooth audio is properly powered on/Bluetooth has an effective range of 30 feet or 10 meters. So its important to ensure that the users Phone, Tablet, iPad is within this range!Check if the Joyonway Bluetooth is already connected to another Phone or Tablet device! If the case, you will need to disconnect the other smartphone or iPad itself if you are unable to determine whether the Bluetooth audio amplifier is being used by another phone, tablet or iPad, please power off the Bluetooth amplifier for 2 minutes. This will reset it!The list of all paired phones will be wiped out when the Bluetooth audio amplifier is re-powered on after powered Off for two minutes.Now turn it back On!Then search again with your mobile device!Now you should be able to pair to it. It is 2288 No, there is no way to change the Bluetooth Pin on Joyonway No, there is no way to eliminate the Pin its likely that the Bluetooth player (phone or iPad) is connected to another Bluetooth amplifier. In this case, first disconnect from other devices. You can do this by forgetting or ignoring the speaker name from the player!Once this is done, search again for the Joyonway Bluetooth signal and make the connection. If you are experiencing stuttering, try the following: move your device (phone or iPad) closer to the amplifier (ideally closer than 10 meters)!make sure you dont have Wi-Fi routers close to the hot tub. These can cause RF interference to Bluetooth signals Joyonway requires a passkey (2288), which means it cannot be used with most TVs. Unfortunately theres no way to remove the passkey from the Joyonway. The way to connect to your TV is with a Chromecast. Connect the HDMI port of the Chromecast to the Joyonway Bluetooth Audio through Google Home App on your home Want to give your brand videos a cinematic edge?
