Both grades have an English STAAR EOC test that includes a writing portion. On the English I test students have to write an expository essay. On the English II test they have to write a persuasive essay. Ive put together the strategies and models Ive used in my classroom into these materials that you can use. They can be purchased in my TPT store. You can either buy a bundle for both ENG I and ENG II or purchase the one you need.I am in Texas and originally created this for my English II students to help prepare them for the persuasive or expository essay they would have to write on the STAAR English II or I EOC test. The advice and common mistakes are aimed towards the goal of passing that writing test. However, I have a PhD in Composition and have tried to create this unit to fit best practices for persuasive essay writing in any situation (whether for a standardized test or a dual credit class or in general).I did not include a rubric because what you are evaluating can change greatly between standardized test, dual credit courses, or general classroom writing goals. If you are using this to prepare students to write a persuasive essay on a standardized test go to your state testing website and look for a rubric. Texas STAAR has a rubric and lined writing paper for the English I expository EOC essay or English II EOC persuasive essay. You can find released Texas STAAR tests here on the state website. You can find the rubrics for the writing portion of the STAAR English I and II EOC here along with other state writing resources.Here is a preview of what it is in the persuasive bundle:This writing kit is good for any persuasive essay needs, not just the Texas STAAR test! It has been updated and is now 27 pages long.It includes: 5 pages of writing instructions handouts with detailed examples. It goes paragraph by paragraph. It has two versions on the example. One version has notes about the organizational structure. The point of the essay is to defend a specific point of view and convince the reader of your position.STAAR Test ScoresThe STAAR English II test is scored using a scaled scoring method. Heres how it works:For every question you answer correctly, you get one point added to your raw score, which can reach a maximum of 64 points. At the end of the test, your final raw score will be converted to a scaled score. This scaled score will range somewhere between 1650 and 6050.The reason your raw score is converted to a scaled score is because everyone that takes the test is given a slightly different set of questions. Since everyone has a different arrangement of questions, and because some questions are harder than others, converting your raw score to a scaled score ensures a more even playing field.Your final score will fall into one of four performance levels:AI Grading for the STAAR TestIn an effort to save time and money, the Texas Education Agency (TEA) implemented a hybrid-scoring model in 2024, which involves using a computer system to help grade STAAR tests. Specifically, the computer will grade about 75% of the test, then hand it over to a human to grade the last 25%.Retaking the TestIf you didnt get the score you wanted on your first try, thats okay! You can take the test again during any testing administration window.STAAR English II Study Guide and FlashcardsGet practice questions, detailed study lessons, and complex subjects broken down into easily understandable concepts.
