Thank you Jul 21, 2022 Version 3.0.3 - On start Critical issue is fixed. This app is very helpful, you can store those pics you don't want everyone to see if they gain access to your phone! My grandkids get on my phone from time to time and that cannot access the photos or videos I store in Antic Clock, it just looks like a clock! This app has been of very good use to me before when a friend first recommended it years back but now I will recover a video I saved then when I try to hide it again in the app it will pop up the successful screen and then ask me would I like to delete the video I did click yes because once I get to that point I'm sure my video is hidden in the app already but only for me to search for it and won't see it.... This has been my issue for some months now.... Developer please check this and fix it please Antic Clock is an awesome app and free as well. I'm satisfied with every detail of the app except for the app icon. I'd prefer another app icon similar to an average clock.
