NO STARVE: ShipWrecked à € "A wild survival game without compromises full of science and magic was released for the first time in April 2013. Unlike most of today's survival games, the game does not take the Post-apocalyptic settings, instead, the game has a very long and exciting story like a private universe. Players will start the game in a vague way, but gradually the story behind it will be revealed. Due to the unique and of the novelty that the game was welcomed by a large number of players who love the kind of survival game. There are also communities that love the game that have been created to exchange knowledge. It is also due to the original game success that created a great motivation for the KLEI Entertainment game developer to create extended game parts. Three versions of download content are Reign of Giants, Shipwrecked and Hamlet, which were released respectively in 2014, 2015 and 2018. Attractive texture with unique Gothic graphics The original game texture begins with the Wilson character, a doctor who loves science, But he often fails in his experiments. One day a strange voice that turned to the radio promising to give him the knowledge of experimenting, but in return he should have helped a stranger to build a portal. When the game has been completed, a voice resounded that he asked Wilson to open the gate, the gate opened and dragged Wilson into a completely alien world. This world is full of bizarre creatures that always chase Wilson and this is when the player's survival trip starts in the Wilson character. Survival in a strange and hard world is completely impossible. That's why the Wilson Character will die sooner or later. But the strange thing is that in reality it's not dead, but it was sent to another parallel world again and continued his survival journey. So so, the player Wilson of the player will die and will come back to live countless times, whenever the player will receive some points of experience and receive a reward every time he is level. Every resurrection is also an opportunity for players to learn their lessons, how to always carry a torch at night if you don't want to endanger. Towards the end of adventure players face each other against the man who brought Wilson to this world and understand the story behind the game. In addition to the plot, the graphic of the game is no less unique. With Gothic-style graphics, the general game brings a feeling of ghost and a bit scary, a feeling that few survival games can give to players. This is also the factor that attracts players at first sight without knowing what the game is about the characters, but everything starts with the letter WAS mentioned above, every time a player's character dies, get points of and unlock a new character as they level. As mentioned above, whenever a player character dies, they get experience points and unlock a new character while they level. In addition, players can alsoNew characters in expansion packages. The number of characters in the game today is very different, up to 23 characters, and not all characters are the same. Each character has a different personality and indices hunger, health and sanity. For example, willow character is immune to fire damage or WX-78 robot can upgrade body parts, but is afraid of water. For example, the character willow is immune to fire damage or the WX-78 robot can upgrade its body parts but is afraid of water. Isn't it strange, the developer Klei made a mistake to repeat words or have some hidden meanings behind to increase the mystery of the story? Is the version of the game's download content worth it? The expansion version of the game DonÀt Starve will not only bring players into a new parallel world, but also a new adventure. With the nautical board, players can craft boats large and small to prepare for their survival and ocean exploration trips. As for the Vulcan card, players can create weapons such as machetes, axes or lances to fight monsters and paddles to help boats move across the sea. Speaking of the creatures in the game, they are also extremely different, from the normal species like seagulls or jellyfish to the bizarre species like dogfish or sharkitten. There are also three heads that the player can meet and defeat: Quacken is à ~" a giant brownish-blue creature with three eyes and many tentacles, Sealnado or àc" a seal that always appears with a tornado and a tiger shark àc "A creature that is basically a combination of sharks and tigers. You will go anywhere on the island, looking for many necessary ingredients. As wood to light a fire, the materials that the hammer makeup, collects... Yeah, food, too. Hunting wild animals or fishing fish is not a bad idea. To make sure your states don't come down drastically. It does not work when you are too tired, do not give up food when you are hungry, and get enough sleep are all the necessary jobs. Even if he calls it a deserted island, there will still be dangerous animals that cling everywhere. Do a lot of self-defense weapons like swords and spears. They have very effective damage and are used to repulse monsters. You can also finish them and add a new source of food. If they're too dangerous and stronger than you. Running now if you do not want to be defeated, if you die, you lose all the materials and personal effects in the bag. These are the basic survival work on a deserted island. To be able to survive on a deserted island, you must first make the necessary tools for survival on it. Grab wood and iron on the island to make tools like pickles, blades and hammers. They are mainly used to dig soil, plant trees, set curtains... for long-term purposes when living on a deserted island. The weapons obtained are used to attack theand defend themselves to find food. You can also build boats, add a sail to sail. Find more interesting things, catch fish and discover the secrets of this island. Different Ecosystem The world of Donàt Starve: Shipwrecked is completely completely from the original Donàt Starve. Simply put, the two universes are completely different. The only difference is that you have now prepared a lot of complete luggage. Prepare to live exciting adventures in many new places.
